PLOS Biology: A Peer-Reviewed Open-Access Journal

The Virtual Plant Cell a WA Science Awards finalist >>Press Release: 16 July, 2018. A ground-breaking virtual reality program created by the ARC Centre of Excellence in Plant Energy Biology takes students on an exciting immersive journey through the cells of plants, usually too small to be seen, and highlights plant research that is contributing to global food security.

PEB::News - University of Western Australia

Chemical biology is a scientific discipline spanning the fields of chemistry and biology. The discipline involves the application of chemical techniques, analysis, and often small molecules produced through synthetic chemistry, to the study and manipulation of biological systems. In contrast to biochemistry, which involves the study of the chemistry of biomolecules and regulation of biochemical ...

The need for a clearly defined and consistent invasion biology terminology has been acknowledged by many sources. Invasive species, or invasive exotics, is a nomenclature term and categorization phrase used for flora and fauna, and for specific restoration-preservation processes in native habitats. Invasion biology is the study of these organisms and the processes of species invasion.

Glossary of invasion biology terms - Wikipedia

This bar-code number lets you verify that you're getting exactly the right version or edition of a book. The 13-digit and 10-digit formats both work.

About - The Dunn Lab is in the Department of Ecology and Evolutionary Biology at Yale University.. We study how evolution has produced a diversity of life. We are interested in learning about the actual history of life on Earth as well as the general properties of evolution that have contributed to these historical patterns.

Anthropology: Appreciating Human Diversity [Conrad Phillip Kottak] on Amazon.com. *FREE* shipping on qualifying offers. A leading name in anthropology, Conrad Philip Kottak continues to define student learning in the general anthropology course. Anthropology: Appreciating Human Diversity offers an up-to-date holistic introduction to general anthropology from the four-field perspective.

Anthropology: Appreciating Human Diversity: Conrad Phillip

Antimicrobials are used in livestock production to maintain health and productivity. These practices contribute to the spread of drug-resistant pathogens in both livestock and humans, posing a significant public health threat. We present the first global map (228 countries) of antibiotic consumption in livestock and conservatively estimate the total consumption in 2010 at 63,151 tons.

The current review examined published data on the intake of all major low-/no-calorie sweeteners—“aspartame, acesulfame-K, saccharin, sucralose, cyclamate, thaumatin and steviol glycosides—“globally over the last decade. The most detailed and complex exposure assessments were conducted in Europe, following a standardized approach. Japan and Korea similarly had up-to-date and regular intake ...
