

general mathematics upper secondary pdf

Integrated mathematics is the term used in the United States to describe the style of mathematics education which integrates many topics or strands of mathematics throughout each year of secondary school. Each math course in secondary school covers topics in algebra, geometry, trigonometry and analysis. Nearly all countries throughout the world, except the United States, follow this type of ...

Integrated mathematics - Wikipedia

Higher education is anything beyond upper secondary school, and normally lasts 3 years or more. To be accepted to most higher education schools you must have attained a general university admissions certificate (generell studiekompetanse). This can be achieved by taking general studies while in upper secondary school or through the law of 23/5 where a person must be above 23 years of age, have ...
