MANAGEMENT & SUPERVISION PORTFOLIO

Project management is the practice of initiating, planning, executing, controlling, and closing the work of a team to achieve specific goals and meet specific success criteria at the specified time. A project is a temporary endeavor designed to produce a unique product, service or result with a defined beginning and end (usually time-constrained, and often constrained by funding or staffing ...

A learning management system (LMS) is a software application for the administration, documentation, tracking, reporting and delivery of educational courses or training programs. The learning management system concept emerged directly from e-Learning, even though there were other tools, IT or not which have encouraged distance education (Distance Education Learning Environments Survey).
