Yesterday Data Visualization Desktop (DVD) Version 12.2.2.0 was released. DVD, since its first release, aims to extend Oracle's Data Visualization portfolio by adding a desktop tool allowing data visualization capabilities directly to end users without the intervention of the IT department, in line with the Gartner's bi-modal IT.. The new version adds several capabilities to the existing ...

SQL mode and user-defined partitioning. Changing the server SQL mode after creating and inserting data into partitioned tables can cause major changes in the behavior of such tables, and could lead to loss or corruption of data. It is strongly recommended that you never change the SQL mode once you have created tables employing user-defined partitioning.
